Our motive behind the conference is to take an opportunity to build networks with other academics and expert in the similar fields of studies around the world and exchange of ideas on recent advances in computer science, Environmental science, cell & molecular biology, plant and animal science, material, agricultural as well as chemical science. The problems that we faced in the 21<sup>st</sup> century require a broader view of scientific culture. In that context the contribution from basic sciences with strong multidisciplinary research has increasingly become essential paradigm for the development and survival of the world. As the faculty of science & IQAC of our college feel that the multidisciplinary approaches should take centre stage while applying advancing and disseminating science and technology. Therefore faculty of science and IQAC of our college decided to organize three days e-conference entitled "international e-conference on New Horizons and Multidisciplinary Application In Science and Technology" i.e. ICMA-2021 on 11<sup>th</sup>, 12<sup>th</sup> and 13<sup>th</sup> October 2021.

The main objective of the conference is to update the recent development of knowledge and practices in basic sciences and to enhance and promote multidisciplinary research as a tool to overcome challenges in the coming decades.
