

## Department of Chemistry Extension Activity

### ➤ NET/SET/GATE Examination Workshop

The department conducted invited talks and lectures through well-established resource persons to clear competitive examinations like SET/NET/GATE examinations.

### ➤ Industrial Tour

Industrial visits are arranged by department every year for the students with an objective of providing students functional opportunity in different sectors. Industrial visit helps to combine theoretical knowledge with industrial knowledge.

Industrial visits are usually the first point of interaction between a student and a live working industry. The students learn about the latest technology trend and make up their minds about their future job or area of interest.

Provides an insight into the real working environment of the industry. Helps them to see their future place in the working world. Develop the leadership, communication and socialization quality of the students. Establish a good relationship between the industry and academia.

### ➤ Intra and Inter department activities

The department constantly motivates students in promoting their skills in participating in intra and inter department activities on the concept of quiz, seminar, posters events and on education, awareness on social issues.

### ➤ Soil Analysis & Water Analysis

Department of Chemistry run this community centric activity for

The Farmers from nearby area of the Umarkhed and our students collect the soil & water sample and submit to the department for analysis. The students of B.Sc. Chemistry and students of B.Sc. Chemistry carryout the analysis of submitted samples under the supervision of our faculties. After analysis, a report of analysis is prepared and handover to concern with recommendations.
