

Report On Industrial Visit

Date of the Visit: October 24, 2024

Location Visited: Babasaheb Naik Cotton Producer Spinning Mill, Pimpalgaon (Kanha), Taluka Mahagaon

Organized By: Department of Commerce and Management, Shri Vitthal Rukmini Arts, Commerce and Science College, Sawana

An industrial visit was successfully organized on October 24, 2024, by the Department of Commerce and Management of Shri Vitthal Rukmini Arts, Commerce and Science College, Sawana. The educational tour was conducted with the official permission and support of the college Principal, Dr. Hemant Mahalle, and was beautifully executed under the expert guidance of Dr. Komal Gupta. The students were taken to the Babasaheb Naik Cotton Producer Spinning Mill located in Pimpalgaon (Kanha), Mahagaon taluka. During the visit, students gathered comprehensive information and practical insights regarding the functioning of a cotton spinning mill, the manufacturing lifecycle, and its day-to-day management operations. The educational tour saw active participation, with

all professors from the Commerce and Management Department as well as a large number of students present throughout the visit.

Objectives of the Industrial Visit

Practical Operational Exposure: To bridge the gap between classroom theory and real-world industrial practice by letting students witness large-scale machinery and automated manufacturing workflows firsthand.

Understanding Supply Chain Management: To educate students on how raw materials (cotton) are sourced, processed, quality-checked, and transformed into finished goods within a commercial factory ecosystem.

Insight into Factory Management: To provide students with a clear understanding of labor management, industrial safety protocols, and operational workflows required to run a production plant efficiently.

Fostering Analytical Thinking: To encourage students to observe market dynamics, production costs, and administrative challenges, thereby cultivating a strong business and managerial mindset.
